DRI-VIT PATCH

#75-500

**ACRYLIC TEXTURED
RIGID HARD COAT COMPOUND**

DESCRIPTION & USES:

A durable industrial grade 100% ACRYLIC trowalable textured hard coat filler or patch. ***DRI-VIT PATCH*** is formulated to fill, patch cracks and voids in "Dry-Vit" or EFIS panel systems. ***DRI-VIT-PATCH*** can also be used to re-float or touch up scars and voids in existing EFIS wall panels or decorative foam appliques or bandings. ***DRI-VIT-PATCH*** can be used as an initial rigid hard finish over decorative foam or other similar type substrate.

APPLICATION

DRI-VIT PATCH can be applied utilizing a spray hopper, trowel or a combination of both to create a "knock down" finish, stone finish or applied to match adjacent surfaces textures.

DRI-VIT PATCH dries to a hard, durable, rigid membrane coating that can be factory tinted to custom match a variety of colors.
